

The Australian designed and manufactured, **Autoflo Gooseneck-Foot** Mains Power Pedal Tap is suitable for commercial applications, particularly in the food service, hospitality and other service providing industries where a reliable and affordable hands free tap is of paramount importance for the prevention of cross-contamination and controlled water saving.

The **Autoflo Gooseneck-Foot** is a built for purpose product, it is a practical solution for situations where the timing and delivery of water is user controlled and where a sensor tap is not a suitable solution.

FEATURES

- Commercial grade foot pedal
- Intuitive depress for water / release for stop operation
- Gooseneck spout well suited to food preparation environments
- LED power indicator on power pack
- Cleanable solenoid filter
- Simple installation

Order Code: 100-0195
